So before we get into everything, you will read a section about us, please read it and understand that nobody really makes good money unless you REALLY try and are dedicated. In this method we are going to be showing you SEVERAL ways on making money, we've used our own methods dealing with Cost per Action/Pay per Download.**READ EVERYTHING!**

About us:

So my name is Kevin and I'm eighteen years old, I've been working on an eBook with my partner McFlurry for a long time now, he's currently seventeen years old and we came up with these methods ourselves and decided to share it to the community. We've struggled but we got there and we make a steady income now, not going to lie making money online was never my thing, we had no idea it would become so easy after being so dedicated and we finally done it. We've been close to giving up on making money as it was hard, but then it changed all of a sudden we started making a good amount DAILY and yes every day we make at least \$70 - \$100 maybe even more. At the bottom you can see we've just checked out our earnings and we have that.

Okay, enough about us we need to concentrate on you guys now and help you earn a bit of eMoneyz.

Virtual PPD

In this method I'm going to be showing you how to sell a virtual item in exchange for promoting your survey link (PPD Link) It's pretty simple, easy and only a few hours of your time and you can make up to \$20 – \$50 within in 1 hour by doing this. So let's get started.

To Do List:

- Brain
- Any PPD site, I recommend [Filelce](#) click for easier acceptance.
- Communication skills
- Few hours of your time
- Gaming platform (Steam, Orgin) ect

Step 1) This is simply, Go to Filelce and go to the *Advanced File Manager*

So it should look something like this, Obviously you won't have "GTA 5 Beta Key Generator" that is from a previous method that I may get into. So you have the Random.txt or .docx whatever you decide and if you click on it, you should be prompted with another box just copy that for now. **Make sure you put something in the .txt such as "thanks for downloading the survey, "Date Here""**

Step 2) So now you want to contact a gamer or something, it can be a friend or a random person, this is where communication skills come into and propose in giving them a valuable virtual item if they complete a small survey.

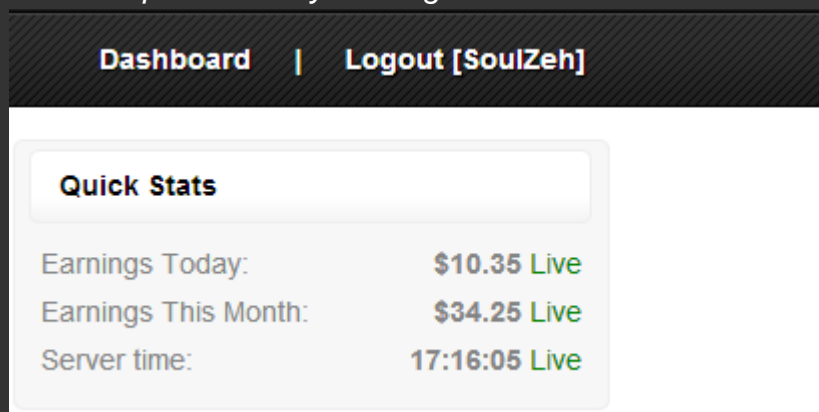

Step 3) Now if they say no, don't give up you need to fight and keep making a good offer so they can't refuse and lure them in by offering them a small item of value, doing this is luring them in. So now you probably have their attention so now offer them to do a small survey in exchange for the higher item.

Step 4) Let's hope they have downloaded it, so to make sure you have to remember what you wrote in that .txt file if they can't give you the correct information on the .txt do not proceed in giving them the higher item as they failed to do the survey. If they validate it correctly then you know you've just earned eMoneyz. (Remember to change the .txt file EVERY time you talk to someone new)

Step 5) As I said in the "To Do List" this can be used in a vary of gaming platforms just as long as the valuable item is used, the profits all consider on how much you actually paid for the game.

You're probably scratching your head at this, wondering what the fuck, but basically all you need to do is have a bunch of steam accounts if you can and then meet active gamers that want a game or something and then just pass it on in exchange of your survey. You can actually make about \$20 - \$50 in about 1 or 2 hours depending on the game and platform.

Hope you enjoyed this.

CPA

For those who don't know what CPA is, CPA stands for Cost-Per-action. In other words it's an online advertising payment structure hat is payment based only on qualifying actions such as leads, surveys, sales, and registration. In order to perform these actions you will need to join a CPA Affiliate Marketing company. Those are large marketing companies that will pay you for an action hence the name "Cost-Per-

Action". On these sites you can earn big money and if you follow along you should have no problem doing so.

To get accepted into CPA networks it will be easy if you have your own website. It will help your chances of getting accepted and will help you in the long run. If you have a website it should generally have a catchy domain, hosting and an email that has your domain in it like 12345@yourwebsite.com. If you don't have this you will still probably get accepted. Most CPA networks will accepted you rather quickly, usually between 24-48 hours.

CPA Affiliate Networks

www.maxbounty.com

www.cj.com

www.neverblueads.com

www.copeac.com

www.cpalead.com

I suggest you use www.Cpalead.com as you will automatically get accepted.

For some of these networks you will need to answer a few questions like "How do you plan on promoting our site?" or "Have you done any marketing before"

Simply answer those questions with something along these lines "I have my own website and I have done CPA marketing before. I have used free forums and other websites to bring traffic to my website"

They will usually accept you once you say that.

Let's get on with the method.....

For this example we will use CPAlead.com so please register and confirm your email. Once you have registered you can start to look for your first LEAD or Offer.

Once you find one the visitor will need to fill it out with his information such as email address, and name. If the visitor does not do so you will not be credited and you won't earn any money. Or if you do an offer you must fill out the survey or complete the offer to earn money. If you choose to fill out a survey to earn money you get to work at your own pace and you determine how much money you make. But with those the only work if you put valid information in. Because it will check with your registration information and if the information does not match you will not get credited.

Below is what all the list of offers should look like and where you should be, from this you can do what I said above.
