

Hi its Lucifer , This is fullz loan cashout guide! To get started you are going to need a few things.

- An USA fullz with background + credit report (Can reach out to me @darklucifer619 for fullz with background + credit report)
- a drop to send a bitpay card too under the fullz name (FULLZ MUST BE IN SAME STATE AS DROP)
- basic opsec setup, VM/RDP/911

Go to bitpay.com and sign up for an account using the fullz info in the same state as your drop MAKE SURE THE FULLZ IS SAME STATE AS YOUR DROP OR BITPAY WILL GIVE YOU AN ERROR. Pay the 10\$ and then you just have to wait for the card to come. Once it comes it will come with a paper to verify everything and you just have to verify the fullz info and the account will be good to go. Youll see a direct deposit thing on your dashboard click that and it will show your account and routing number so you can use this as a bank drop. The reason we use these for bank drops is because they are easy to open and their ATM limit is 10,000\$ daily and they work worldwide. So they are perfect for fraud. IF YOU ARE FROM EU, JUST USE A FULLZ IN YOUR SAME COUNTRY AND SHIP THE CARD TO YOUR DROP. THEY SHIP TO THE EU.

Once you have all these things you are ready to get started. What you need to do is find yourself small personal loan sites, do not use any of the big sites as they have the most security. Look for smaller sites on google under personal loan, some that work are avant.com, personalloans.com, rocketloans, nerdwallet. You can also find other small sites to find your own personal site you like to use if any of these stop working. What you want to do is first connect to your VPN inside your VM, then connect to a socks5 in the same state as the fullz. Then, you want to make sure you use chrome while doing this as I find it has the highest success rate. Make yourself a outlook.com email with the fullz name. If the name is jimmy jones make the email jimjones9874@outlook.com or whatever you get the idea. Then you want to go to any one of these sites are the other small sites, and fill out applications for personal loans. I usually select home improvement, vacation, pretty much whatever. Dont do loans over 2k, as they will call the fullz phone number. Use the email you made and all the information from the fullz, if you dont know something like pay amounts etc just put something reasonable like 60k a year. For the receiving bank account, use the bitpay card you opened under the fullz name Once you complete the application, sometimes you will get instant approval, sometimes it will take 24 hours or so. If the fullz is good and your socks5 is clean you should get approved. Then the funding usually takes 24-48 hours! The funds will hit your bitpay card, and you can then go remove it all at the ATM as bitpay cards have no daily ATM limit you can hop from ATM to ATM. You can also apply for loans on multiple sites, but I suggest spacing 24 hours between them to avoid fraud alerts, and if you do 2-3, space out atleast a week or two before you do anymore or it will kill the fullz.
