

EARNINGS+

Welcome to the EARNINGS+, you have already made the first step in becoming an online monetizing!

Table of contents:

2: Overview of the eBook

3:The Websites.

4:Creating Accounts

5:Finding the right 'niche'!

6:Setting up your shop!

7: Handling orders!

Conclusion!

Overview of the eBook:

Okay - Below is a quick overview of what we will be doing to generate fast cash. Don't get overwhelmed as I don't go into great detail on every step.

Making accounts on sites to sell our products. Next you need to start looking for the "right" niche to sell. Then we will be posting on sites to get buyers. After that you can begin handling orders and forwarding the product to buyers. That's it! Oh..and the last step is to have fun while making money.

Alright, so let's get started on the eBook.

The Websites

The websites that we will be using you probably know, or may even have accounts on!

These sites are Etsy and Fiverr. Here are the links:

<http://www.etsy.com> <http://www.fiverr.com>

Now, if you have never heard of these sites, you are probably wondering what they are.

Fiverr is a site where people offer to do anything and everything from drawing your name on them to painting portraits to making videos for \$5.

Etsy is a website where people can buy and sell handmade vintage and artistic type stuff.

Creating Accounts

This is where I go over how to create the accounts for the needed sites. Pretty basic stuff but a necessity.

To make an account on Fiverr:

- 1- Click Join (<http://www.fiverr.com/join>)
- 2- Enter your details and confirm your email.

To make an account on Etsy:

- 1- Visit: <https://www.etsy.com/join>
- 2- Fill in needed details and confirm your email.

Finding the “Right” Niche!

Here comes the fun part! Now we need to find gigs/niche that provide an artsy service. For example; paintings drawings, jewelry, anything handmade. Also make sure to check out the gifts section. This is where I find a lot of “right” gigs.

So what exactly is a the perfect gig to use? Here are some things to remember when finding it:

The seller’s item must be handmade. The seller’s item must be unique for each customer. So each painting/drawing must be unique. The seller on fiverr MUST be willing to ship the item to the US.

Finding the “Right” Niche cont.

The seller on fiverr MUST have previous customers that are happy.

Look at the ratings and the level of the seller. Level 2 or top rated is always better.

The seller's item must be very highquality. If you are unsure try ordering it yourself before putting it into action. The seller MUST have pictures of the item. The seller on fiverr MUST have previous customers that are happy. Look at the ratings and the level of the seller. Level 2 or top rated is always better. The seller's item must be very highquality. If you are unsure try ordering it yourself before putting it into action. The seller MUST have pictures of the item.

So those are some basic guidelines to follow. Here are some ideas to get you started in the search for your gig. Caricatures, Pet Drawings/paintings, Portraits. Etc.

Setting up Etsy Shop.

In order to get orders we need to set up your etsy shop. But don't worry, it is pretty simple. I am going to break this down into steps:

Click the sell button. Click "Open an Etsy Shop". Click the "List Your First Item" button. For "about this item" use these settings: "I did", "A finished Product", "Made to Order". Now select your Category 90% of the time I select art. This is a judgement call: whatever you think best fits the gig will be the category. Now this is IMPORTANT! For photos, simply go to fiverr. Take the example photo and right click it. Then "save as". Finally upload the saved photo to etsy by clicking the button. For the item title, simply put a short general idea of the fiverr gig. For Example: Custom Black and White Caricature. OR: Custom Pet Painting On Canvas

Setting up Etsy Shop cont.

Description. This is by far the most important step. What I usually do is take all of the info I can from the gig description and re type it in a more friendly and descriptive way on etsy. Make sure to include how long it takes to ship, your email, along with the details on the item. (painted with oil etc). Tip: Contact the fiverr seller and ask questions about what exactly the product is made out of and more. Add tags. This is very important to because this is how buyers will find your product. These are kind of like hashtags for social media sites. Set a price. Remember, you are only paying 5 dollars so don't go too high. I usually do 20 dollars more depending on the item..So \$25. Also check out your competition, see how much they charge! Change the quantity to whatever you would like and add shipping. Don't add International shipping as most gigs don't allow that. Preview Listing. Go over to the Get paid section and add your paypal. TIP: Set up for accepting credit cards!! You will get more orders! You can do that on the get paid tab by entering your bank account info! Add your billing info - yes it is going cost you money to set-up shop. But it is Only \$0.20. You are now done with the hardest part!

Handling Orders:

This part is pretty easy and pretty self explanatory but I will touch upon it anyway. When someone orders your etsy, you should get some sort of email notification. But I always check the site periodically just to be safe. Immediately after you get a purchaser from etsy order the gig you found from fiverr. Give the fiverr seller the information from the etsy order. For example, you would send them a picture that the etsy buyer provided. (if it was a caricature gig or something like that). It is also important for you to give occasional updates to the buyer from etsy. Simply like: “Your order is shipping today” Or “Thanks for your order! I will get started immediately!” OR “It will arrive next week!” You get the idea, it is important to stay in contact with everyone at all times.

Conclusion

I hope you enjoyed this eBook.

If you bought the premium method and need help, message me on HF.
