

Cash King

Hello, and thank you for your purchase of Cash King. Today you are going to learn that it is possible to make a living online.

To sum up this e-book you will be re-selling products. This may not sound like it is that profitable, but you can easily start a very profitable shop in a very little amount of time.

To start you're going to want to try something like seo. You can purchase an seo service from one of the following links

<http://www.fiverr.com/javajamez1/seo-full-50-page-report-of-your-website-in-24-hrs>

<http://www.blackhatworld.com/blackhat-seo/seo-packages/654231-captain-jack-sparrow-returns-23-phases-search-engine-optimization->

You can sell seo on places like warrior forums and hack forums. What you will do is setup a shop and when someone buys fulfill their order with the offers about, but rise the price. Some people will pay outrageous prices for seo, so start small and work your way up until you can flip a big profit. More people will be willing to try it at a lower price. If you were to give out the first few sales discounted, then it will be easier to attract customers.

The next way you can do this same method is with social media services. Businesses and

people who like social media will always like to buy this. There is never a low demand because people will want more and more, and this creates the demand for the sell, which is you.

On hackforums and fivver is the best place to buy social media service, but hackforums is usually a bit cheaper. You can even resell the social media on hackforums. Other place that are good would be are ebay, warrior forums, and freelancer. Twitter, facebook, Instagram, and youtube are my favorite sites to use for this method. Just

simply repeated the same process as the seo reselling. Buyer -> You -> Seller

Another very good service to resell would be graphics. There are many talented graphic artists on hackforums that you can use their work to re-sell it in the areas listed above.

You can find graphic artists here:

Conclusion

This method of reselling can be used in so many ways with a lot of items. I recommend starting with all of these until you find what works best. If you have any

questions just message me on hf, or on
skype.
