INTRODUCTION

The most simple and easiest guide to spreading your server's ... made by Bumblebee from hackforums.net. Just follow the steps given in the guide and you will get around 500 downloads of your server per day .. I, Bumblebbe, will not take ANY responsibilities for what you may/will do with the knowledge from this guide.

Method #1

Youtube Is One Of the Best Places To Spread Viruses.

1> We Are Going To Need To Download Hypercam:

<http://www.hyperionics.com/hc/downloads.asp> After Installing Hypercam Open It And

2> Okay Now We Have Hypercam You Need To Find a Specific Target Eg. Runescape Players, Habbo players, People Who Want Photoshop Cs5 Cracks/Serials. After You Think Of The

People You Want To Target Move To Step Three

3> Now We Have Are Specific Targets Selected Search Youtube For a Video That Is Getting Good Hits For This Im Going To Use a Rsbot Video.

4> Open Hypercam And Click Select Region Now Click At The Top Part Of The Youtube Video That You Want To Copy Click and Move The Mouse Till u Get something Like This.

Step

5> Click Play on The Video And Press F2 On The Keyboard To Start Recording The Video.

Make Sure To Repeat This Step At Least 20 Times But u Can Make The Video's As Long/Short As

You want I Normally Make Mine 10 Seconds.

Step Six Logon To the Youtube account You will Be Using And Go to My Videos Then Goto New >

Video Upload > Upload Video. After That Navigate To The Were You Stored Your Videos Click On

The First One Click Shift And then Click the Last One. Then Click Open And You Are Done All You

need Now Is To Copy The Title Of The Video And add Your Download link.

I Normally Have Around 10 Youtube Accounts With 30 One Minute Videos On Each And If Your

Virus Is FUD You can See To Get Around 50-100 Bots a Day From This with the Right

Method #2 (Ewhoring)

In Websites Like <http://omegle.com/> and many more, There are people Pictures Of People Naked .. so why not take advantage of such people ..

1> Put Your Virus In a .RAR File And Name It Something Like pic_carZ.jpg.exe After You Have Don't this Upload It To Rapidshare/Uppit/Megaupload Any Sharing Website You Like.

2> Go To <http://omegle.com/> And Start a Conversation With Some Person And if they Start

Sounding Like a Pervert By saying ASL Tell Them Something Like 19/F/Uk Make It Sound like Your

Young But Not To Young.

3> Get into A Conversation With Them And Wait until Them ask For a Picture Or Say To

Them Here this Is What I look like What About You. If You want You Can Try Sending Them To a

Fake Picture First To Make them Feel Like Your Vulnerable And Then Send Them To Your Virus.
I Would Normally Get About 30 Victims In a Hour. But If You Are Committed To Getting Victims
Then You Can Get a Omegle Auto Spammer And Set It Up On a VPS.
20 Victims a Hour With a VPS and 24/7 Spamming Will Get You Some Good Results.

Method #3 (Java Driveby)

Java Driveby's Are One Of the Most Commonly Used Hacking Tools Because It Is Easy To Setup And Easy To Get Victims From.

- 1> Download The Files That You Will Need For This Part Of the Guide:
<http://www.megaupload.com/?d=CX8IQ8Y0>
- 2> Upload Your Virus To a Direct Download Website like Directvirus.org
- 3> Go To The Java Driveby Source Code and Open Index2.html In The text Editor Of Your Choice.
- 4> Press Control And F And Search For This YOUR URL HERE Were It Says this That Is were
You Put The Download To Your Virus. There Should Be Two Which You Have To Edit.
- 5> Close And save The Index2.html. Now You Are Ready To Upload To Your Host. I Would
Suggest Using t35 To Host This As it is Free Or You Can Hack Someone's Website And Add The
Driveby To The Main page.
- 6> Finding Victims For This You Can Advertise on Runescape Forums Saying Its a New Runescape Private Server That You Made And You Need Staff Or Find Someone On MSN That You
Don't Like And Ask Them If They Like Your website.
I Have Around 4 Websites Up at The Moment And By 1 Hour Of advertising In The Right Places I
Got About 20 Victims. Yeah I know That's Not a Allot But After Theses People Start Telling Over

People About The Website You will Get More 20 People Can Turn Into 60 In just a Couple of Days.
