

OMBRA - HF

DIGITAL CODES METHOD

My name is Ombra, thank you for purchasing this ebook.

This method has been developed by me and a friend of mine
in order to get digital codes for free.

You need:

- an amazon.com profile
- a listia.com profile (verified)
- expensive items photos (consoles, phones etc...)
- a fake facebook profile (verified)

Let's start with the explanation:

Listia.com is an auctions website where members can list their own items and get offers from other members. Offers aren't made with real money but with a virtual value called "credit" (1.000 credits for convention are around \$1, since site owner sell \$10 amazon gift cards for 10.000 credits).

Listia also give you badges which are "rewards" that appear on your profile when you do a certain thing (example: you log in for 7 days and get the 7 check ins badge; you receive 15 feedback ratings and get the 15 feedback ratings badge etc..) between these badges there are a few that help you in getting trusted; these are:

- Wings
- Seller wings
- Trusted seller
- Verified account level 1

Once said this I can propose you 2 ways to work: the first one is the fast but unsure, while the second one is the long but 100% successful. I'm going to explain them and then you have to choose which take.

FAST BUT UNSURE WAY:

- Just list a few items you own, posting photos of them with your name on a piece of paper.
- Get offers ('ll be low since you're not a trusted member)

At the end of the auction contact the winner saying that you're going to ship the item (but in truth you have not to ship). You have just to take time with winner since 20 days are needed to transfer credits from customer profile to yours.

After 20 days you 'll get your credits (if winner didn't open a dispute on you because didn't get the item) and you have to spend them as soon as possible in the rewards store by purchasing digital items (not physical. Digital items only).

Once you have done this just disappear. Rainse and repeat. Your account 'll be likely closed or turned in negative since credits 'll be reverted to the customer and your credits balance 'll be something as "-100.000".

This is the end of the fast but unsure way.

The screenshot shows the Listia website interface. At the top, there's a navigation bar with links for 'Rewards Store', 'Get Credits', and 'Invite Friends'. Below this is a search bar with the text 'I'm looking for...' and buttons for 'Search', 'Browse', and 'List Auction'. A user's credit balance of '3,787 credits' is displayed on the right.

Below the search bar, there's a section for 'My Activity' which includes a table of recent transactions. The table has columns for 'Title', 'End Time', and 'High Bid'. One item, '\$30 Gift Card to Amazon.com', is circled in red. Other items include 'Urgent Disputes', 'My Disputes', 'I'm Watching', and 'I Won'. Below this table, there's a section for 'My Closed Auctions'.

On the left side of the interface, there's a user profile section with a 'Get Started' button and a 'My Account' section. The 'My Account' section shows 'Messages (0 unread)' and 'Inbox (0 unread)'. There's also a 'Get to know Listia!' section with a 'Let's Go!' button.

Title	End Time	High Bid
Urgent Disputes	20 days ago	33,613
My Disputes	21 days ago	20,050
I'm Watching	in about 11 hours	4,640
I Won	7 days ago	30,000*
	16 days ago	1,380*
My Closed Auctions	10 days ago	25,590
	16 days ago	659

Goal	Progress	Reward
List an auction	Complete	50 credits
Take a video tour of Listia	Complete	50 credits

LONG BUT SUCCESSFUL WAY:

The screenshot shows a Listia user interface. The 'My Activity' section displays a table of won auctions. The 'My Closed Auctions' section shows a closed auction with a high bidder. A Blocco note window is overlaid on the page.

	Title	End Time	High Bid
I Won	\$10 Amazon Gift Code LOW GIN 13000 Ecard Card	2 days ago	13,000*
	\$25 Amazon Gift Card/GIN 3 Days Only	2 days ago	28,000*
	\$15 Gift Card to Amazon.com	6 days ago	15,000*
	\$50 Gift Card to Amazon.com	6 days ago	50,000*
	\$30 Gift Card to Amazon.com	14 days ago	30,000*

My Goals

(if you're wondering, KingOfHunt3rs is my old username)

This way have 100% chance to give you excellent results, but you must be patient and follow these steps:

- Verify your listia.com account by mobile (use pinger or ask somebody on HF to make a mobile verification for you. Is not vocal, you have just to tip a code)
- Link your listia.com account to your fake facebook account (this must be verified by mobile too)

In this way you'll get the "Verified account - level 1" badge. This make you seem more trusted and must be used for next step.

- Now you have to list at least 15 auctions of little items which aren't expensive (digital codes as 48 hours xbl codes, receipes for food, or whatever you can get for free and can be sent by private message on listia). I suggest you making 20-25 of these auctions because a lot of user didn't give you feedback once they win, and for this step you need 15 positive feedbacks.

Now that you have your positive seller feedbacks just "play on listia": you should have something as 1.000 credits; well, use these to buy little digital items and getting customer feedbacks, because you must wait 20 days from your sign up day in order to get 3 important badges (wings, seller wings and trusted seller. This one is the most important for this method).

This means that you can list a \$100 Amazon gift card, an iPhone or other very expensive items and once the auction ends you'll get your credits instantly. Consider that 1,000 credits is around \$1. A \$100 Amazon gift card is sold by members at around 80,000-100,000 credits; if you list 2 of these you'll get easily over 150,000 credits, which can be spent in the rewards store to get a true \$150 Amazon gift card which you'll receive by mail. This is just an example, you can list 2x\$50 Amazon gift cards, 2x\$100, 4x\$10 and get more credits.

Golden advice: you have not to wait 20 days without doing anything. I suggest you making 5-6 (even more) listia accounts, in order to get more profits without waiting cycle of 30 days each time.

Thanks for reading.
