Hello everyone, today I am going to show you how to get everything you need to start your own site for a total of 1 cent.

Part 1: Domain

First, I am going to show you how to get a domain name for free.

1. You are going to want to go here:
<http://www.wisconsingetonline.com/radio>
2. Sign up for an account.
3. Click this: ① [Choose a domain \(www.yourname.com\) for your website](#)
4. Pick desired domain name
5. Fill in the boxes using this info:
 - a. Name: (Doesn't Matter)
 - b. Email Address: (Use your's!)
 - c. Phone Number: 262-854-5407
 - d. Address: 1845 Joseph Street
 - e. City: West Allis
 - f. State: WI
 - g. Zip: 53227
 - h. Country: United States
6. Click next until you are asked for billing information
7. Go to www.entropay.com

8. At the top you will see a “Sign Up” Link, click it and make an account, using the information you used in step 5.
9. When you get to funding options, click “Pay by Bank Transfer”
10. Select the Country Afghanistan and enter a random name.
11. If it asks you to verify your email, do so. You should then see a picture of a credit card, use that to complete the billing information that we started in Step 6. The name on the card is “Entropay User” or something like that; it’s at the bottom of the picture of the card.
12. You have now completed the process; it normally takes 24 hours to register the domain, so come back tomorrow.
13. Once the domain is registered, click “Manage Your Intruit Website Domains”, then click “Edit Domain Locking” and click “Unlock”
14. Go back and you can now edit your nameservers.

If you continue the guide, then I will teach you how to get \$0.01 hosting.
