

Hey guys and welcome to my e-book. Here I want to show you how you can have a dream steam.

1- Can I make money with your methods?

-Yes you can, I'll give you the most important ideas how you can monetize your steam.

2- What exactly will you teach us?

-I'll show you how you can get free games and how to get free csgo, tf2, dota2 skins and steam cards.

---- So let's start----

Free games – 1^o method: Fake YouTube account

-Create a new YouTube channel with a nice gaming related name and then download many and many videos (let's plays, reviews, trailers, walkthrough) from other YT channels, but be careful, do not download from big Youtubers just go to the smaller ones who have good quality. Upload some videos every day and wait for the subscribers. When you have more than 1000 subs just ask to keyshops if you can get a ref-link so you can get 5-10% of the incoming.

Some nice keyshops:

- <http://www.kinguin.net>
- <https://www.g2a.com>
- <http://www.fast2play.com>
- <http://www.go2arena.com>
- <http://www.allkeyshop.com>
- <http://www.gameladen.com/>
- <http://www.g2play.net/>

Free games – 2^o method: Buy cheap keys and sell them

- This method needs a investment. Buy cheap keys and sell them on Ebay. You can buy the keys on the method 1 shops or you can check for some nice promotions on

- <https://www.humblebundle.com>
- <http://www.bundlestars.com/>
- <https://www.indiegala.com/>

Free games – 3^o method: Giveaways

- There're always people doing nice giveaways, just search on YouTube, for example, "rust giveaway" and change the filter to "this week" or "this month". On www.twitch.tv you can search for "giveaway" as well. Other nice site is www.steamgifts.com, you just need to log with your steam acc, choose some game giveaways you want and wait for the winner.

Free games – 4th method: Buy cheap and trade

- Buy a cheap game or game item, put it for trade (on csgolounge.com, Facebook groups, Steam groups) and wait for a nice offer.

Free games – 5th method: Email

- Imagine you want the game “Beasts of Prey”. The programmer is Octagon Interactive and the publisher is also Octagon Interactive. So you need to email Octagon Interactive with something like:

-Hello Octagon Interactive

I love your game Beasts of Prey, I want to play the game and make some gameplays for my YouTube channel. Can you gift me a key?

YouTube subscribers: 1155832 - <https://www.youtube.com/user/funkyblackcat>

Thank you!

You'll get your answer in a few days.

You can also write to keyshops like the ones in the method 1.

Free Steam Items method

-Requirements:

-PayPal account or any other money account where you can transfer money.

-At least 2 pages of reputation on your Steam profile (you can easily trade steam rep in csgolounge or ask your friends)

-Some rep in csgolounge, Facebook group or where you're getting your victim

-Note: Yes, this involves a certain type of scamming but you only can get reported for scamming on steam. Don't worry, police will not ring your bell!

I'll only teach you how to do it with PayPal but the process is the same for bank transfer or any other money account you use.

---- So let's start----

Okay let's say you want an AWP Boom. Just go to csgolounge and add a new trade, your offer will be real money for the awp boom. When someone adds you just say that you'll pay with PayPal, Paysafecard or bank transfer. Now you need to get your victim trust you, I recommend you only accept people with low reputation and only a few expensive items since it's easier to get him trust.

So once he trusts you and accept the trade, just log in your PayPal account and you'll fake a payment.

You need to change the things in the red boxes.

The screenshot shows a PayPal account interface. At the top, there are links for 'Log Out', 'Help', and 'Security Center'. Below the PayPal logo, there are tabs for 'My Account', 'Send Money', 'Request Money', 'Merchant Services', and 'Auction Tools'. Under 'My Account', there are sub-tabs: 'Overview', 'Top Up', 'Withdraw', 'History', 'Resolution Center', and 'Profile'. The main content area shows a welcome message, account type 'Premier', and status 'Unverified'. It displays the 'PayPal balance: €20.74 EUR' and a table of available balances. A 'Currency converter' link is present. On the right, there are 'Notifications' including a link to confirm a debit or credit card and policy updates. Below this, there's a section for 'My recent activity' with a table of transactions. The table has columns for Date, Type, Name/Email, Payment status, Details, Order status/Actions, and Gross. One transaction is listed for 'Dec 25, 2014' with a status of 'Unclaimed' and a gross amount of '€0.01 EUR'. The 'Details' and 'Cancel' buttons for this transaction are also visible.

Currency	Total
EUR (Primary)	€0.00 EUR
USD	\$25.98 USD

Date	Type	Name/Email	Payment status	Details	Order status/Actions	Gross
Dec 25, 2014	Payment For	[Redacted]	Unclaimed	Details	Cancel	€0.01 EUR

Basically the things are PayPal balance, date of the payment, name/email, payment status and gross. (If you don't have any recent activity just ask a friend for 0.01€ and sent it back)

Okay now you're asking how to change it... Here are 2 videos with the 2 different versions of PayPal page so you can understand how to do it.

<https://www.youtube.com/watch?v=TzwIntaRUZw>

https://www.youtube.com/watch?v=IDBXzS_tPul

Now the important thing is to change the Payment status and order status. Just change the "unclaimed" to "Processing" and in the button cancel put something like review. So you can say that the payment will take a few days and you can't cancel it.

So finally when you have a convincing fake payment just screenshot the page, sent it to the victim and say something like "Okay the payment is processing can we trade now?" If he trades then delete and block him, if not just tell him that you have to go and delete him too.

Okay guys that's it, hope you like my first e-book. Any questions just send me a PM on HF.
