Method 1

www.qmee.com

Referral link to help me out: www.qm.ee/CEF3040F

Sign up, and download the browser extension for it. When you search on Google, or Amazon, it will give you links to click on, on the left side of your screen, occasionally. You can click these links and usually you will have about \$0.08 added to your account balance for clicking the link. All you do is click them, and the money starts to pile up!

Here's a bonus! Each referral you get to sign up with your link, and they cash out to their PayPal, you will receive \$1.00 added to your account!

Method 2

www.shoemoney.net

This method is simple. You go to the link above, and sign up.

You will be asked to watch a video (just leave the video open while you go do something else)

They will then ask you to share something on Facebook (you can delete it later). Then click “verify”, where the verify button is.

You will then be prompted to login to your PayPal, or continue the course. You’re going to pick to login and cash out.

When you sign it, after a minute or so, you will receive \$1.00 to your PayPal account!

Method 3

www.interwrk.com

You need Firefox to do this method. Even if you don't use Firefox, just download it, because you can just leave it open in the background.

Sign up on the website, and download their toolbar. Every day you earn \$0.02 for just keeping that Firefox open. You do no work! And over time, that \$0.02 increases to \$0.03, and so on! You can even refer friends and earn a lot more money from it!

Method 4

www.freeeats.com

You just sign up here with your phone number, and you are given \$1.00 for just registering! Now every text they may send you, you will earn \$0.25 or more! This method is completely autopilot, and it is super simple!

Method 5

www.1q.com

Sign up here to help me out: www.1q.com/QYVDZ

You just sign up and download their phone app. Every question they ask you, you can earn up to \$0.50! It's awesome!

If you refer friends, you can even earn more!

Method 6

www.g2a.com

This method is pretty known, but still can make you some real money!

You can just buy cheap game serials/codes and sell them off on eBay for higher!

OR

You can sign up on their g2a goldmine, and if someone purchases a game through your affiliate link, you will earn money for it!

Method 7

GFX Design

The method is self explanatory. If you are any good at Photoshop, you can sell GFX art. You can sell things such as, thread designs, signatures, avatars, YouTube banners, thumbnails, and more! It's actually great if you know what you are doing with Photoshop. You can charge up to \$15 for a thread design, or even more if you find the right people to sell to.

Method 8

Homework for Money

If you are good at doing work, and get really high grades, you can do other people's homework assignments for money. I paid someone \$35 to do 1 assignment for me before. If you have the time, and work ethic, you can make a lot of money from this!

Method 9

www.inboxdollars.com

Sign up here to help me out: www.inboxdollars.com/?r=ref20954397

You sign up, and they will send you emails. You open the email and click “confirm paid email.”

They pay you \$0.02 every time you confirm a paid email! It’s dumb easy money! You can even refer friends or family to earn more. You can do surveys on the website to earn money as well, and there is even a \$5.00 sign up bonus!

Method 10

BTC Exchanger

This method can make you some money if you have bank account/credit card.

Sign up on www.coinbase.com, or some other website where you can purchase bitcoin instantly, and you can just buy & sell bitcoin for profit. Charge rates like 10% or 15%. You can exchange your BTC to PayPal, and make a profit from it! It's crazy how much BTC is in demand right now, and you can take advantage of it.

Method 11

Referrals

This is a good idea to use for the methods that were listed before.

Make a YouTube video advertising the websites like qmee, 1q, inboxdollars, and get people to sign up with your referral link to earn you some money.

You can also share your referral links on Twitter, Facebook, Instagram, and more.

Method 12

www.prizerebel.com

Sign up here to help me out:

www.prizerebel.com/index.php?r=Hakan1218

Although a lot of people might find this method time consuming, and stupid, you can earn some money with this.

You fill out surveys, and do offers for points on the website. 1 point is equal to \$0.01. You can get a bunch of prizes from Prizerebel, and even

PayPal money cash out. Try it out!

You can refer friends and family to earn from them as well.

Method 13

AppNana/AppJoy

You can download AppNana/AppJoy on your iPhone (not sure about android) and download apps for “nanas”. You can then spend these “nanas” for free apps, bitcoin, PayPal, or more. It’s pretty awesome!

Use my invite code for free nanas: t11011099

Method 14

www.seoclerk.com

You can sell eBooks, social media followers, and other services on www.seoclerk.com. Just buy cheap \$1 eBooks that promise people to make money, and sell it off on SEOClerk for like \$5. You can earn lots from this if you use it correctly!

Method 15

www.fiverr.com

This method is probably known, but you can go on www.fiverr.com and make a gig for \$5. You can sell whatever your talents may be and make \$5 per sale. Well, \$4 per sale, as Fiverr takes a \$1 fee from each sale.

Method 16

www.bitify.com

You can just sell money making eBooks here (just buy some shitty ones, or get free leaked eBooks that promise to make people money.)

You can make a bunch of money from this, and its basically autopilot.

The only thing you need to do this method is a BTC wallet to get paid in!

Thanks for reading! Once again, if you own the standard edition of this eBook, you can contact me to upgrade to the premium edition.
