You might ask yourself why so many links and which one I should use? Well the answer is simple. There are 3 main categories, and we'll be focusing on the first one because it is the one which pays us \$1 per free registration.

In this category, there are many links as well, and it depends on the audience you're targeting. For example, if you want to advertise your links on gay chat rooms, you will use the "Random Room: Male". I hope you get the idea.

Now you have setup everything about the site and you have your linking code. You could shorten it using your own domain (better) or tinyrul.com. Don't use goo.gl.

Methods:

Using my 7 years experience as internet marketer, I've developed and found many methods to earn even more with CPA.

#1: Instagram:

Without investment:

Instagram is one of the top social networks on this planet. I'm pretty sure you are aware of this site. We will use it to make money. Now we have 2 options. We could create many accounts and post images with adult hashtags: example #adult #hot #girls. You add a caption similar to this: "Hey guys, want to join my webcam show, click the link in my description". The other option is to insta-direct (sending messages or images to specific users) some horny people on there. You would send them an adult picture and a link to visit (this is your affiliate link).

With investment:

You can buy some instagram profiles with high amount of followers and put the the affiliate link in the description, then post adult pictures linking to it. Don't use nudity.

Another option is to use instagram online bots. Do some research about it. It's very efficient.

#2: Adult Chatrooms:

Believe it or not, chatrooms have always been gold mines.

List of adult chat rooms: [here](#).

Never spam the chat rooms with your links. Private messages online chatters and send them the links after chatting with them for a bit. Remember, for every member that joins your earn \$1. You will try to convince the people you talk to register to see your webcam and you will give them a private show or your phone number.

#3: Sexting forums:

We will be using sexting forums, like kiksexting.com, sextingforum.net, snapchatgirls.com,... So first of all, you can register to these forums. Upload a nice avatar (use google).

Create posts mentioning that you will send nudes. Put an image that has a PLAY button on it (that looks like a video) and when they click on it, they will be redirected to the affiliate site and you earn money ;).

Conculsion:

That's it guys. Use your imagination to earn even more and make it autopilot.

HINT: Use tumblr to earn even more. Reddit is also a good source of income. ;)

I will update this e-book with more detailed methods as soon as possible. Keep your eye on the thread [here](#).

Don't forget to post in the [thread](#) to make it alive.

Have fun earning money and good luck.
