This method is a way to earn money via [LocalBitcoins.com](https://localbitcoins.com). The process is easy. Some users are willing to pay more for your Bitcoin. An example is opening a currency exchange for a 10% fee. You 1.1x your money with extremely low risk.

The first step is to buy Bitcoin. I recommend Circle, Coinbase, etc. to buy it. If you have PayPal, stay away from exchanging with high fees. Withdraw to a bank account, and from there buy Bitcoin. The more Bitcoin you can get, the better.

Head over to LocalBitcoins. Click "Sell Bitcoin" at the top. Make sure you're region is the USA. Now, find a payment method you can accept. PayPal is just fine if you have it. If you can accept PayPal Cash Card, that's even better. There's Skrill, etc. Find the best way you can personally accept it, and sell the whole stock of your Bitcoin. You can get rates up to +25% from extremely trusted members.

LocalBitcoins.com user *Gooddumps* wishes to buy bitcoins from you.

Price: 278.90 USD / BTC

Payment method: Paypal

Trade limits: 50 - 200 USD

Location: [United States](#)

Payment window: 360 minutes

How much you wish to sell?

USD 278.90

BTC 1

Look at the example above. 1 Bitcoin at the time of writing is \$225 USD. That means, if you were to sell to this guy, you would make more than \$50! And that's just one time. Repeat this over, over, and over and soon you'll be rich!

This is similar to selling Bitcoin for PayPal right on Hackforums, except the risk for a scam/chargeback is insanely low on LocalBitcoins. Trade with trusted members and things should go well.

If you don't have a bank account, simply ask a friend who does.

Bonus Method

Head over to <http://fastslots.co>. Click on Deposit, and deposit your Bitcoin. The bigger amount, the better. Once your Bitcoin is in, click on Chart Bet. Chart Bet is a game that can easily be abused.

Click options and drag both sliders to almost the end (last dash before the end). Wait until red or purple drops severely. Then, buy in! Once you've made a good profit, click the button again to sell.

Do it over and over, you can make some good money.
