To show the ip via JavaScript

```
var ip= '<!--#echo var="REMOTE_ADDR"-->';  
document.write("Your IP Address is :"+ip+" ");
```

To show IP via ASP

```
request.ServerVariables("REMOTE_ADDR")
```

TO SHOW IP VIA PHP

```
<?  
$remote_address = getenv("REMOTE_ADDR");  
echo "Your IP address is $remote_address."  
$browser_type = getenv("HTTP_USER_AGENT");  
echo "You are using $browser_type."  
?>
```
