

## **Overview**

**Before we even get into the specifics of the method, I'd like to guarantee you something. With this method, you will see the highest time invested to profit ratio you have ever seen in your life. Basically, what we will be doing is buying, and re-selling Netflix and Hulu 12 month codes on eBay. The process is simple, and you can make a profit of \$50+ per code. I used to sell these on the regular, and I literally sold out faster than I could obtain them. That being said, let's start!**

## **Method**

- 1. Create an eBay account, and link it with your PayPal.**
- 2. Find a code supplier. If you cannot find one on Hackforums.net, check Leak.SX (shitty forum, I know), and BitLeak.Net. For the record, I am not active on LSX or BL. I simply use them to buy codes every now and then.**
- 3. Once you've found a code supplier, there are a few things you need to ask. Number one is what the price per code is. Second is if they offer bulk discounts on orders of 10+ codes. For Netflix codes, pay around \$10/code. With my previous supplier, I bought codes at \$10/code with orders of \$10+ codes. For Hulu Plus codes, buy them for around of \$15/code.**

The buying prices are just general guidelines. You will be able to sell the Netflix codes for about \$50 each and the Hulu Plus codes for about \$80 each. Your buying cost comes out of your profits. You do the math.

Third, ask them what regions the codes work in. Netflix codes are region specific. Some only work in the UK, some only in the US, etc. Hulu Plus codes obviously only work in the US.

The last and most important question to ask is how they get their codes. **DO NOT** buy a code if the seller does not tell you where they get them from. If they are carded/social engineered, you will get charged back very fast. Most legitimate suppliers I've run into have obtained their codes through a promotion by Sony that is over now.

4. Setting up your listing. This is really the only part of this method that requires a bit of time.

First up in the title.

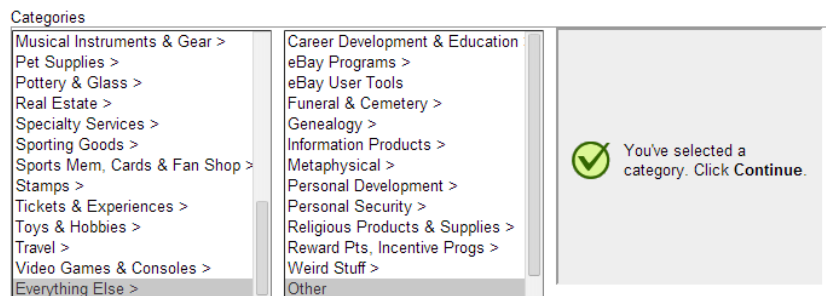

Give us a title for your listing or enter a UPC or ISBN.

Start Selling

Create a title that sounds attractive, clean, and clear. Mention the areas your codes work on, and specifically that they are one year codes. This is an example of an excellent title.

**Netflix 12 Month/1 Year Gift Code - US, UK - FREE Email Delivery!**

Next is the category. You **MUST** choose Everything Else > Other. Otherwise your listing will run into quite a few bugs.

For your condition description, put "Brand New".

For the pictures you upload, it's very important that your main picture be something that isn't already being used by a competing listing. You need yours to be unique! So search "Netflix 12 Month" on the eBay search bar. This is what pops up for me.

**Now simply search “Netflix”, or something similar on Google images to find an image that’s right for you. An image like this looks great.**

**For your description, you really only need to highlight a few points. That shipping is free via email, that each code is tested to be working, what regions the code works in, etc. This is the description I used.**

You are paying for a 12 month/1 year Netflix gift code.

This code can be redeemed on anyone's account whether you are new to Netflix, or an existing user.

Each code is tested before being sent to customers.

Delivery will be by email.

**These codes only work for US and UK residents.**

**If you’re selling Hulu Plus codes, it’s important to mention that if the buyer is an international resident, they should confirm that Hulu works for them before purchasing. What we’re basically saying is that we want to make sure they have a VPN so that they can access the Hulu. We don’t want them to buy a code, and then complain that it doesn’t work for their country.**

**Now for setting the price. Put your price a dollar or two below the cheapest listing out there right now. Because the cheapest listing I saw was \$55, I might be a bit bold and put mine at \$50. Make sure to make your auction a fixed, Buy It Now listing.**

The next step is creating a payment policy. This is a one time thing, so don't get too upset. You can make one in 60 seconds. Essentially, all you really have to mention is that this is a policy for digital goods.

You can either save the changes to the policy you're editing, or save them as a new policy with a different name.  
Note: To manage your business policies at any time, go to the Account tab in My eBay and then click Business Policies.

\* Policy name

☒ Set as default payment policy ?

The more important part is that you put your PayPal email in, check the PayPal box, and check the "Require immediate payment..." box.

Select at least one payment method. Find out about [other payment options](#) you can offer to your buyers.

\* Electronic payment  
methods ([fee varies](#))

☒ PayPal [?](#)

Accept credit card and bank payments safely and easily with PayPal.

Your PayPal account email address (to receive payments) [?](#)

☒ Require immediate payment when buyer uses Buy It Now [?](#)

**Now you must create a shipping policy. It works in much of the same way the payment policy does. First, create a simple name and description.**

### Edit shipping policy

You can either save the changes to the policy you're editing, or save them as a new policy with a different name.  
Note: To manage your business policies at any time, go to the **Account** tab in **My eBay** and then click **Business Policies**.

[Offer additional service](#)

**Lastly, we create our Return Policy. It's up to you, but I personally prefer to offer replacements instead of refunds.**

## Edit return policy

You can either save the changes to the policy you're editing, or save them as a new policy with a different name.

Note: To manage your business policies at any time, go to the **Account** tab in **My eBay** and then click **Business Policies**.

\* Policy name

Refund Policy

**Email them the code, then send them a message via eBay that you've sent it to them.**

**8. Mark the item as shipped, and leave some positive feedback so that they do the same.**

**Within a day, my sales looked like this.**

A screenshot of an eBay Payments summary for the last 31 days. The table shows two rows: 'Received' with a value of 'C \$269.42' in green, and 'Not received' with a value of 'C \$0.00' in red.

Payments (last 31 days)	
Received	C \$269.42
Not received	C \$0.00

**It's important to note that once you receive the funds to your PayPal account, they will be held there for 21 days. This is a safety precaution by eBay, and you just need to wait it out.**

**Enjoy the method, and feel free to PM me on HF for support. And if you've bought the premium package, add me on Skype!**
