

Undercover Code

This is the first time I'm gonna reveal the exact method I used a few years ago when I first started out working with CPA offers, and now Clickbank. Hopefully this will help someone to make his first dollar with Clickbank too.

The method works great even today. Actually, today it should work even better due to the huge collection of products you can now pick up on Clickbank.

Knowing that everyone will use this method slightly in a slightly different way (by choosing different niches, products and keywords), it guarantees that it isn't going to get saturated anytime soon.

Using this method:

- I was able to send highly targeted traffic directly to my affiliate links (no website required) - I worked 10-15 minutes a day - Even my clicks increased every single day!

So, if you are excited and ready to give this a try, then let's get straight into the method.

(Continue to the next page)

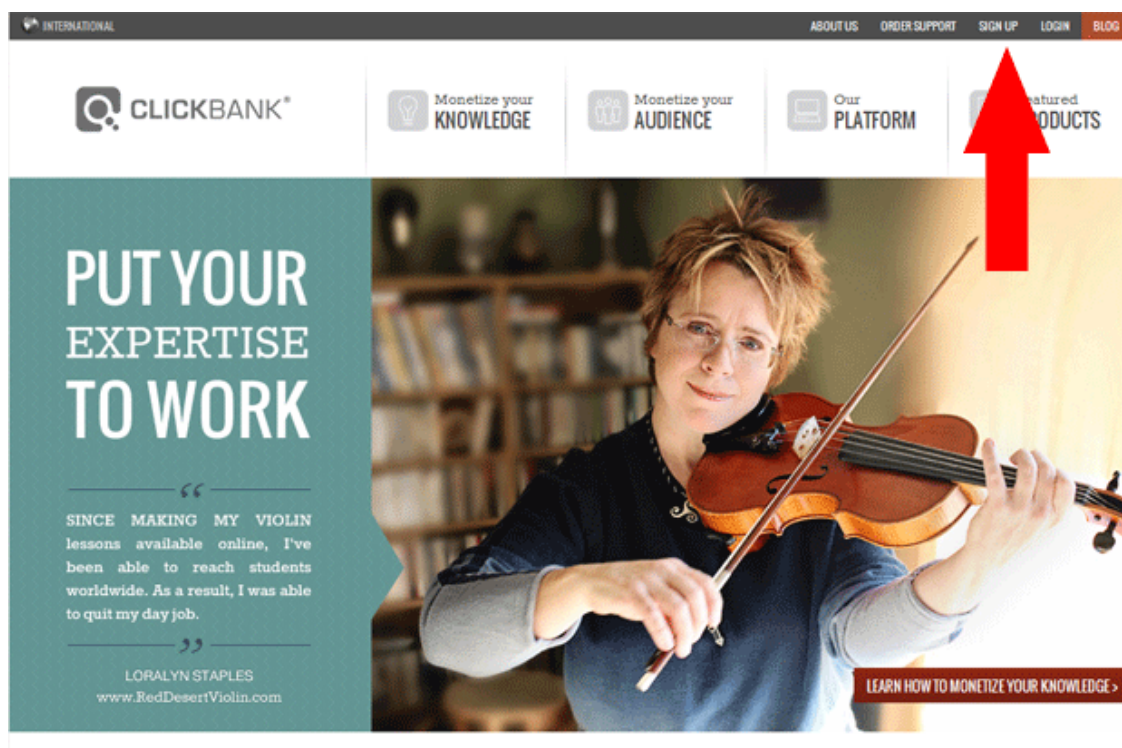

Get A Clickbank or CPA Account:

(Same steps can easily be applied to CPA for this case study we will use Clickbank.)

First you need a Clickbank account.

If you already have an account on Clickbank, just skip this step..

If you don't, go to **Clickbank.com** and sign up. Your account will be approved instantly.

Choose The Niche And Product On Clickbank

As soon as you have an account, go to the Marketplace and choose the product you want to promote.

Sorry, I won't be able to help you with this, as I don't want everyone to use the same niche/product which definitely saturates the whole thing.

I would suggest you to choose the niche that you know well or at least

feel comfortable with.

As this will be important in the later stages of the method.

The screenshot shows the ClickBank Marketplace dashboard. At the top, there's a navigation bar with links like 'Welcome: rainis24', 'Log Out', 'Knowledge Base', 'Partner Offers', 'Marketplace', 'Blog', and 'English'. Below this is a secondary bar with 'DASHBOARD', 'CB POWERED', 'SETTINGS', 'REPORTING', and 'RESOURCES'. A red arrow points to the 'SETTINGS' link. The main area is titled 'MARKETPLACE' with the subtitle 'Choose from thousands of great products to promote'. There's a 'Find Products:' search bar. Below the search bar, there's a 'Results' section showing 'Displaying results 1-10 out of 12279 (pg. 1 of 1228)' and 'Results per page: 10'. A red arrow points to the 'SETTINGS' link in the top navigation bar. The results list includes two products: 'The Tao Of Badass - Dating Advice For Men - 75 Percent Commish! (view mobile)' and 'The Fat Loss Factor : Guaranteed Highest Converting Front End On CB'. The first product has an 'Avg \$/sale' of '\$57.55' and a 'PROMOTE' button. A red arrow points to the 'PROMOTE' button. The second product has an 'Avg \$/sale' of '\$44.15'. A red arrow points to the 'Avg \$/sale' field. On the left side, there's a sidebar with 'Resources' (Bookmarks, Recently Removed) and 'Reset Filters and Attributes' (Filters, Gravity, Avg \$/sale). A red arrow points to the 'PROMOTE' button.

Click on "Promote" button to get your affiliate link.

Build A Review Blog For Your Chosen Products

I know, I know. Creating a blog is a B*\$!#.

However! This could dramatically increase your conversions. At least this is what I do today.

Time and time again, tests showed that some kind of pre-sell/review page increases conversions almost *every time*.

However, if you choose to not to go with the review/pre-sale page, then that's OK. It will work either way.

Get Traffic To Your Review Page/Clickbank Affiliate Link

Now this part will put a big smile on your face, or a sensation in your pants...

Why?

Well, we are gonna be doing exactly what affiliate marketing is all about: "finding people who have a certain problem and introducing them to the solution (Clickbank affiliate offer)".

But instead of going to Google looking for the forums, blogs and videos where our targeted audience hang out, we will automate the whole system and let the almighty **Google Alerts system** notify us whenever someone post anything related to our niche/keyword ON THE WHOLE INTERNET.

Did you heard what I just said?

Google will send us an email with the exact link to the page almost the same minute when someone post a news, blog post, forum post or video in your chosen niche!

Your only job is to click through that link and reply back. And of course don't forget to present your review page or affiliate link.

How?

Usually including the link in your "Website" box if it's a blog comment. Or in your signature if it's a forum post.

To set up Google Alerts for your keywords, go to **<http://www.google.com/alerts>**.

(Continue to the next page.)

Google Alerts

Search query:

Result type: **Everything**

How often: **Once a day**

How many: **Only the best results**

Deliver to: **raimundasm@gmail.com**

CREATE ALERT Manage your alerts

Google Alerts sends you the latest relevant Google results (web, news, etc.) based on your queries.

Enter a search query you wish to monitor. You will see a preview of the type of results you'll receive. Some handy uses of Google Alerts include:

- monitoring a developing news story
- keeping current on a competitor or industry
- getting the latest on a celebrity or event
- keeping tabs on your favorite sports teams

Manage your alerts · Google Alerts Help · Terms of Use · Privacy Policy · Google Home · © 2012 Google

You can put as many keywords as you want. Here are a few examples of what you should be aiming for:

[product name] [your niche] [competitor products] [anything else thats relevant to your niche]

Then sat down and watch your email box flooded with Google alerts!

☐ View: All

| | |
|--|---|
| <input type="checkbox"/> Google Alerts | ▶ Google Alert - traffic |
| <input type="checkbox"/> GetResponse Support | ▶ [raimundasm_blog_list_traffic@app.getresponse.com] Subscription notification from getresponse |
| <input type="checkbox"/> GetResponse Support | ▶ [adsense_222@app.getresponse.com] Subscription notification from getresponse |
| <input type="checkbox"/> GetResponse Support | ▶ [adsense_222@app.getresponse.com] Subscription notification from getresponse |

You should be getting around 100 alerts a day. Depending on how popular your niche is and how much keywords you put in.

Can this make you 1 sale a day? Heck yea!

You don't have to be near your computer all day long. Spend 15 minutes of your time either in the morning or in the evening to do some posting and that's it.

Remember, with every method you have to be patient and completely committed. This one is not an exception.

You have to put some work to see the money coming in.

Now keep in mind that the traffic will (hopefully) multiply almost everyday due to the new comments/forum posts you leave everyday. Once the posts begin to rank, your review blog will start ranking on Google for even more traffic!

If I would do this as often as I did then, I would send all the traffic to my squeeze page collecting email addresses. But that just me...

I hope you enjoyed the method!

If you have any questions about ANYTHING make sure to reach me on HackForums under my username Dough Boy.

To your success,

Dough Boy

DISCLAIMER: I don't guarantee any results. The results will depend solely on the kind of effort you are willing to put. Not every blog comment will be approved. Your forum posts will be deleted if you spam your affiliate link all over the forum. But if you stay committed and won't give up – the results will come.
