

ULTIMATE MINECRAFT DOMINATION

BEEN THAT **NOOB** ON A SERVER WHO MAKES FUN OF
YOU OR YOU JUST WANT DONATOR OR OTHER
FREEBIES THAT YOU CAN ENJOY?

WANT TO TAKE OVER AN ENEMY? THIS METHOD
WORKS ON ALL OS. 100% ON CRACKED 75% PREMIUM

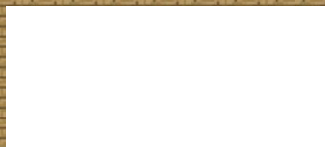

THIS GUIDE IS FOR YOU

As I said earlier this method **ABSOLUTELY** does not include.

- Any sort of Investment
 - Cracking Accounts
 - Hacked Clients
 - BLACKhat Activity
- BuyCraft Exploiting
 - Fake Reciepts
 - Blackmailing
 - Paypal shit.

Before starting to explain this method to you, I would like to say **THANKS** for buying my ebook!

I would really not appreciate if this method is leaked or anything of that sort. So that's why I have included your HF UID :

This method is really easy and it will work ALL OF THE TIME if you will apply my method please take time to read this method and understand it.

Things Needed for this method!

Brain.

Computer.

Minecraft.

Ability to portforward.

So now you have the things needed to do this lets jump into the method shall we?

First

Setup a minecraft bukkit server on your computer.

<http://www.youtube.com/watch?v=xw1GtzScGZw>

[w](#) Here is a video on explaining how to do this.

Having trouble on getting the install files? Contact me on my skype id : phantomdamn99

Second

Get this plugin. <http://dev.bukkit.org/bukkit-plugins/loginsecurity/> What this plugin does is it will allow you to see the passwords in CLEARtext without having to crack a code in the command prompt or terminal.

Third

Run your server and get the IP address ;)

Fourth Step

Go to the server where you want op on or donor or anything basically what you are going to do is tell the person you wanna hack to join your server and when he will register you will get his password.

Suppose you want donor. Go to the guy who has donor just try to befriend him like be team with him and stuff. Then do /m and tell him like this:

You: Hey man wanna check out my server?

Victim: Sure.

You: Here is the ip 192 . 436 . 145 remove the spaces in the dots {put ur server ip with spaces in between the dots.}

Victim: Kay

You: See you there?

Victim: See ya there then!

Fifth

when he joins tell him to register by /register password password tell him that or someone hack his account

So when he does that just open the console and
you will see the password!

Now what you need to do is just go to the server
he is on and just login with his account! {when he
is offline on the server} Oh you need cracked
Minecraft once again ;) If it is premium just u can
login with that password you got :D

That's it! Thanks for purchasing my Ebook and
enjoy OP or whatever you want!
