## TAX REFUND TUTORIAL

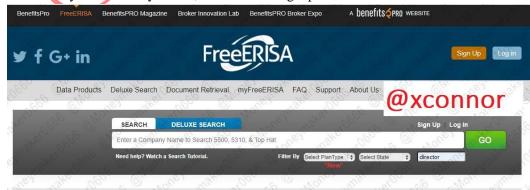

- 1• First of all get a good fullz of someone who works, don't take just any broke ass person who doesn't even pay his taxes, the better his score, the more money he will get refunded.
- 2. Use a background search site like Truthfinder or any other background site, to get the real company the person works in, even if you don't see his current company, you can choose his previous company.
- 3. When I did background search of the company I used, I realized the profile works at a company called Summer Energy Holdings inc.

Now you need to get some information about the company the profile works for as shown below

- 4. Now that you have the Company he works for, go to https://eintaxid.com/ to get the Company Tax ID or EIN
- 5. I just input the company name here, and the address, phone number and EIN number of the my profile works for, was shown here as expected.

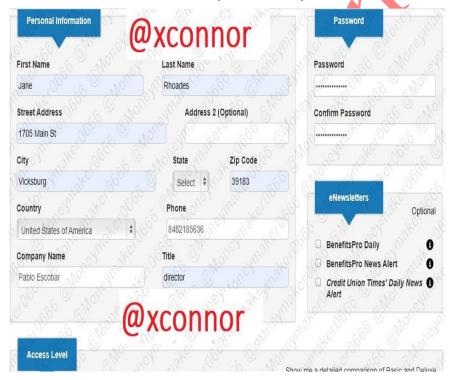

- 6• After that, go to https://freeerisa.com/ to get the Total Assets of the company the profile works for.
- 7 Before you can do any search, first click on Signup

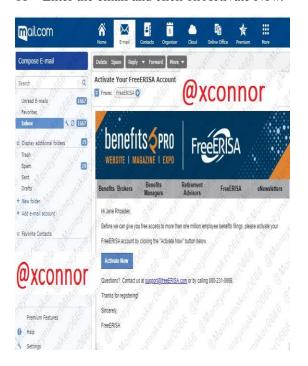

- 8• Input your email address, Choose Accountant, Auditor or Actuary for Primary Job function and then create your FreeErisa Account.
- 9. Fill the info as i have done here, you can use any fake USA number

10• A link will be sent to the email you put there.

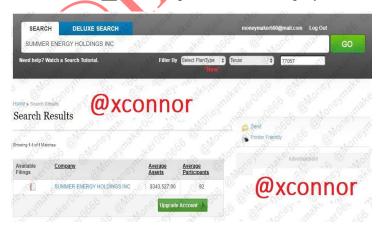

11 • Enter the email and click on Activate Now.

12• After account has being created, put the company of the profile there, write the ZipCode there and search for it

13• Put down the Average Assets of the company.

The EIN/TAX ID is important because every company pays taxes on it employees so they might look at that before paying you.

- 14. Now that you have the company EIN and Average Assets, let start filing for the Tax Refund of the Ssn profile.
- Now the site Below is just a Calculator, it will ask you the same questions TurboTax will ask you, and I advise you to go there first so that u calculate how much tax refunds you will get even before you go to TurboTax, using that Link also helps you know what answers you will give at TurboTax.
- Before you file for Tax Returns, you don't just jump to TurboTax to file, you will first go to this IRS link below

https://apps.irs.gov/app/tax-withholding-estimator/about-you

- So let start with the Link and let see how much Refunds we will get, if the amount is good then we move on to TurboTax and use the same details to apply, this prevent try and error when filing because you already know what amount you wil be given
- 1.Click on the link
- 2. Choose the same answers I chose, you will get low refunds if u apply as Single, you get (times 2) amount if you apply as married. If they ask for dependent, choose more than 2

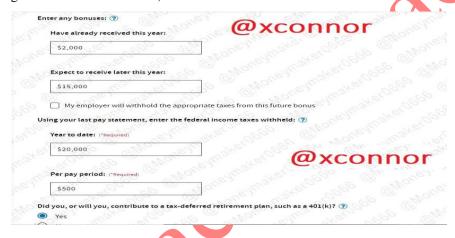

3. Never tick on any SSN benefits or money interest box, that will just reduce your refund amount because they will think you have benefited from government

4. If you are asked how frequently you are paid, Choose Weekly, that means in a month you pay taxes 4 times so that will double the refund amount in this section, as for the Total wages and bonuses, you can write any number, u don't have to copy mine

	will earn income from this year. Each job should be entered se
order in which you enter them does not matter.	
Your First Job @xconn	or and a second
Your First Job	
Do you expect to hold this job the entire year (Jan. 1 throug	h Dec. 31)? (*Required)
Yes	
O No	
How frequently are you paid? (*Required) ③	@xconnor
Weekly V	e wxcominor
1 - CO - WALL - CO - WE.	
On what date did your most recent pay period end? (MM/DD	/YYYY) (*Required) (*)
01/08/2021	
(A)	
TOTAL TOTAL TOTAL TOTAL	
Enter the total wages you expect to receive this year: ('Requir	ed) ②
Enter the total wages you expect to receive this year: (Requision)	(a) (b)

5• Federal taxes withheld = 20% of total wages (use that calculations for the wages you wrote to get withheld income taxes).

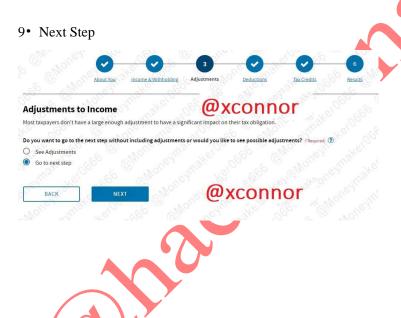

6. This part is very important, when asked about 401k and retirement plan, choose Yes and with amount write atleast \$20k, we pay taxes on pensions so you will get more refund if they see that u contribute high on your pensions, Same as the pre-tax Childcare credit account.

7. Having a second job also increases your Tax refunds because it means you pay twice more taxes, and use the same wages and figures you used when filing for the first job

8. Write the same figures you wrote above for the Spouse and Second Job, it the same questions they will ask so put in same figures, but don't copy paste the exact same figures I wrote, you will cast the figures

10 • You are given \$12,500 standard deductions if you applied as single, but since you applied as married, you get \$25,100. So that the trick to get more, Click Next

## 11 • TAX CREDITS: See tax Credits

- 12• When you are asked questions about the number of children or dependent you have, Always choose 3 or more, if the number is more than 2, you get paid more
- 13. If you follow the Process step-by-step, you will be given a Tax Refund amount above \$100k+

14. So this just a calculator, remember that you are not filing it here, you are just calculating how much you will get when you file. If you are comfortable with the amount here, then we move over to TurboTax and file with the same figures and amount used here

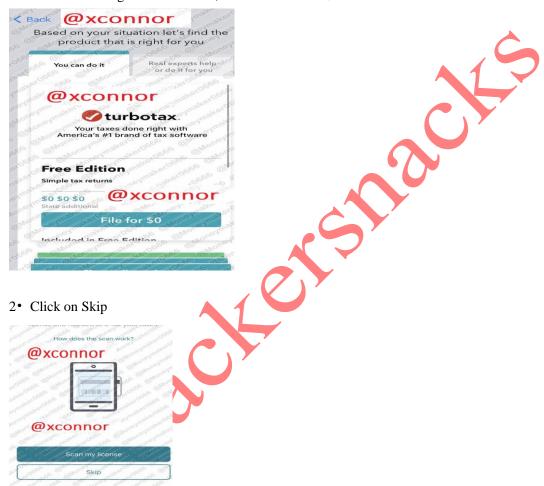

Now let Move on to TurboTax, will just show just a few point to consider, they practically ask the same questions I sent above so u can just refer to the answers you gave

And remember that we are going to use the same figures and answers we used when we tried this site

https://apps.irs.gov/app/tax-withholding-estimator/about-you

If u use the same figures u tried on this site, they will give u similar refund amount they gave u there

1. We will be using the free version, so choose File for \$0

3. You can choose the state on the ssn profile you using to file, it can be Any state at all, But choose No if they ask if you have stayed in another city before

4. Choose NO for all questions they ask on this side

5• If you are asked if you have children or Dependant Choose Yes, if they ask for the number write 3 or above, this means you have people you look after and so they will automatically b flexible on you and that means more money for you.

6. If you are to file, choose as a married person who files Jointly

7. Now this is where they ask for W2, First click on Skip it for now

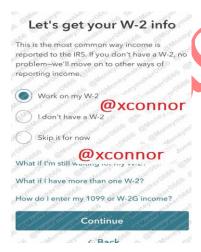

8. Choose No for any Social benefits

9. And choose this

10. Now they will come back to the W-2 again, this time don't skip, click on Work on my W-2

And now here is the trick for the W-2

11 • Click on "Type it in myself"

12. Put the company EIN here, if you dont have it just go to https://eintaxid.com/ and get it

13. After the EIN, you can guess the employer name, but put the company address here

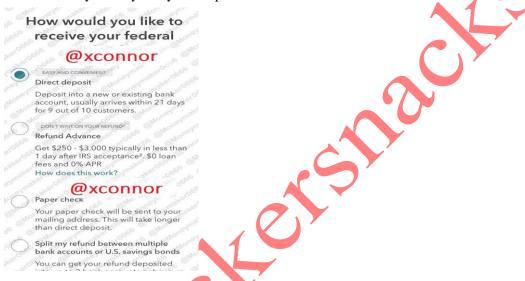

14• Every other questions they ask from you about the Total wages, Withheld taxes amount and everything, just put in the same figures you put in when you calculated at this site.

https://apps.irs.gov/app/tax-withholding-estimator/about-you

If you put in the same info and figures, you will get the same tax refund amount as u got in that IRS calculator site

Here, the same info you used here, use that same info and figures for the TurboTax

15. Now when you are asked how you want to get paid, You can choose Direct deposit so they send the money directly into your drop's account

16 You will be asked to enter the bank account, you can also enter prepaid card info here, but they won't accept Cashapp

17° You will then input the account info here , they only need account number and routine numbers to receive payment.

18• After the 1st and 2nd steps are done; final step will be to Sign and File the returns

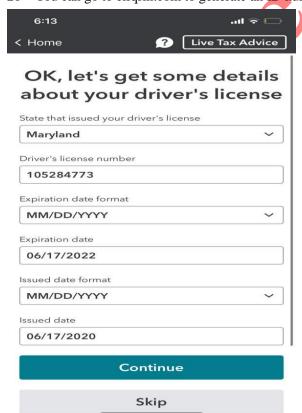

20 • Choose "I didn' t file last year"

## To e-file successfully, the IRS needs your adjusted gross income (AGI) from your 2019 tax return

Your	2019 AGI is a unique number on last		
year's	a tax return.	r	
What	tax paperwork do you have?		
$\bigcirc$	I have my 2019 tax return. (Highly recommended)		
$\bigcirc$	I can't get my 2019 tax return. I'll pri and mail or use the self-select PIN I created last year	nt	
$\bigcirc$	I requested and received my 2019 transcript from the IRS.	?	
	I didn't file last year.	?	
Where can I get last year's tax return?			
Continue			

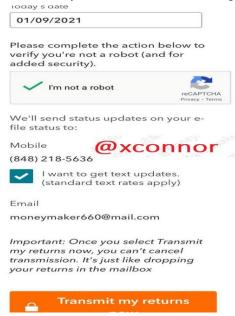

With the Spouse info, u can assume any info there

21. You can go to elfqrin.com to generate an ID number to put there

22. After this, you will send code to either phone or email attached and submit the tax filings

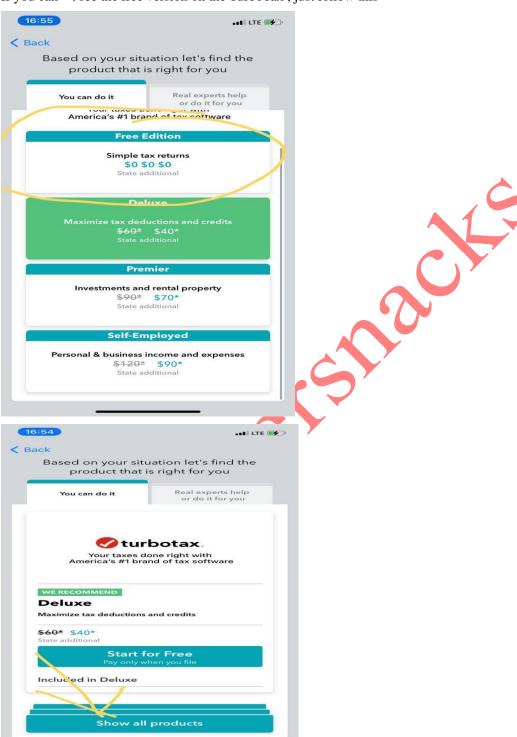

23• Since I choose the free version, \$0 charges for the TurboTax filings, I won't need to pay anything for it and my total charges will be \$0.

This the name of the app I used to file, and it on App Store

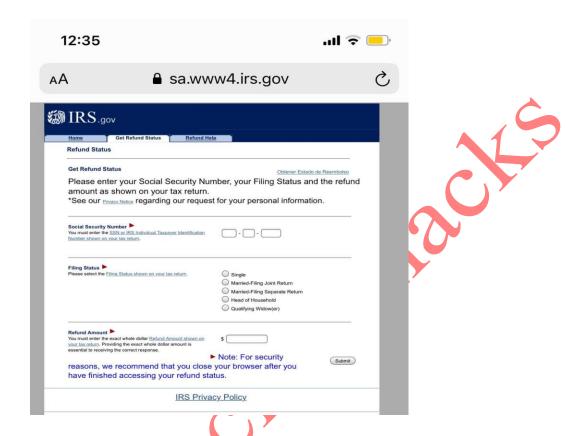

If you can't see the free version on the TurboTax, just follow this

• Now after you are done filing, you can wait for some days(don't ask how many) and then visit this link below, to know the Status of your filing, if they are now processing, they will say Pending.

https://sa.www4.irs.gov/irfof/lang/en/irfofgetstatus.jsp

I checked mine, and it showed that my refund application has being received

After some days, I checked again and this is what I saw, They will pay me all my tax refund money by January 29th

Someone will ask: Boss I just checked my status and can't see any response on the tax site

Ans; they haven't received or processed your info yet, many people are filing so can take weeks sometimes.

• After some days, I checked again and this is what I saw, They will pay me all my tax refund money by January 29th
