

Easy way to make decent cash

Written By **LordCoder** HF 2015

Introduction

Welcome to this ebook and thanks for purchasing. I am going to explain an easy way to make a decent amount of cash with an easy setup.

This money making method is based on a famous Spanish board called "**ForoCoches.com**". This board requires an invitation to register there, which is usually given to old members there by the forum admin.

People purchase those invitation links for \$5-\$15 depending on the supply of them. We will post ads on a free website so that people can contact us and then receive their money.

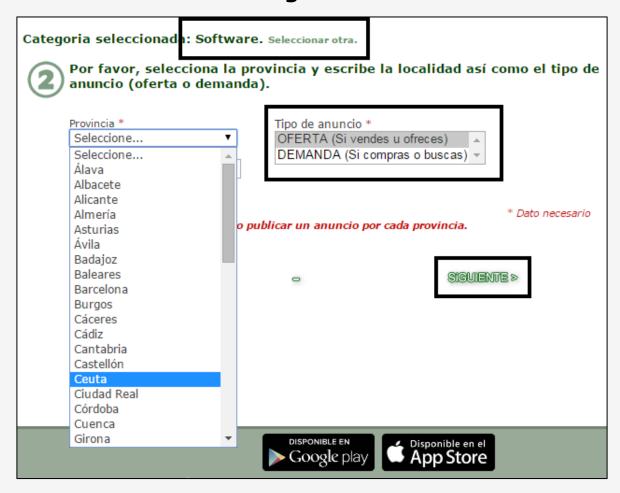

Note: This method is **legal** but could be a bit unethical. If you do not like this kind of money making method, then you should leave this ebook.

Let's start and build our method!

Setting up the advertisement

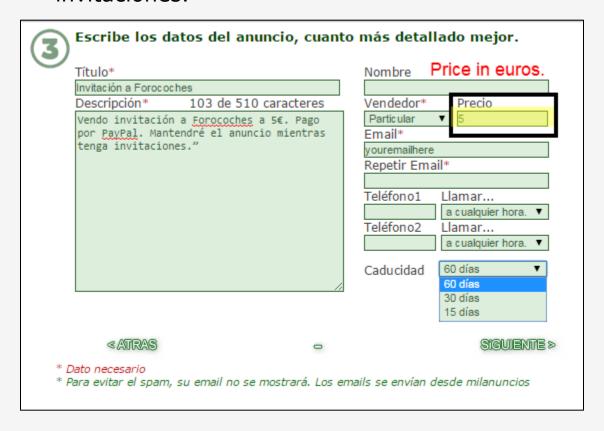

We will publish our advertisement on MilAnuncios.com, a free advertisement platform where anyone can post stuff there.

Click on the following link here and choose on "Provincia" any of them. Then choose "OFERTA" on the next list and click "Siguiente".

Next step is building the ad itself. On "**Título**" put "**Invitación a Forocoches**" and on the description copy the following:

"Vendo invitación a Forocoches a 5€. Pago por PayPal. Mantendré el anuncio mientras tenga invitaciones."

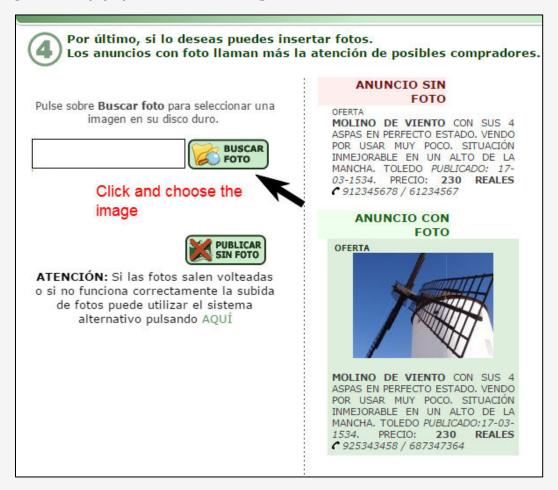

Remember that the price is in **Euros**. $1 \in \{0.11\}$ USD aprox.

Put your PayPal email on the "Email" box.

Finally, as product image put the following:

That is the Forocoches logo, most ads use this image so just copy paste that logo.

Result should be something like this:

You will now have to wait some hours until anyone wants an invitation.

The following step will be talking with the people interested in your advertisement. Now relax and wait for some message.

Extra messages

"Vendo invitaciones a Forocoches. Pagos por PayPal. Fácil y sencillo."

"Tengo invitaciones de Forocoches. Acepto PayPal. Precio negociable"

"Invitación a Forocoches. Foro más grande de España. Se acepta PayPal"

Receiving emails

This platform does not allow direct messages; instead, it notifies you so you can email them.

You can send them the following email:

Hola buenas,

Para recibir la invitación, envíame 5€ a [your paypal email here]. Envíamelo como amigo/familiar ya que así no hay que pagar impuestos y es directo. Dime tu dirección de email para enviar la invitación.

Gracias y un saludo.

This message tells them to send you 5 euro to your PayPal as **gift** so they cannot reverse it.

Just copy paste it on all your messages and someone will send 5 euro (or more if you put it) when you send that message back.

How-to: Renew your ad every day!

Every 24 hours you may need to renew your ad. That is because MilAnuncios has the option to renew between all of the ads.

To do that, go to <u>here</u> and put the information they have emailed you (password).

INSTRUCCIONES PARA MODIFICAR/BORRAR/RENOVAR ANUNCIOS
