Ca$h It.

Hello and welcome to my eBook. This eBook will learn you how to make at least $20 a day. You can make much more with this but that depends on the prices you will ask. This is noob friendly and everyone can do this. Lets get started.

First of all, you need to sign up for a website called ''PayIvy'' and for paypal. PayIvy allows you to let someone pay and then bring him/her to the download/document. I did that for my eBook too. (you can do it with every other site that allows you to do this but I prefer PayIvy) Don't forget to fill in your paypal email adress at your chosen site to receive payments.

Secondly, you need to find a forum (more forums = more **ca$h**) for a simple game (I prefer facebook games, thats the way I have been doing it) This forum needs to have active users, with active users I mean users who will read the forum.

Now, once you have done the steps above lets get to the real business to make some **ca$h.**

You need to improvise a glitch for the game you chose to make money with. Just write down what you think in a .txt file. Example, the game you chose to make money with is a slots game, what you could write in your .txt file is:

1. Open slot 1

2. Spin 3-5 times and then exit to lobby

3. Go to slot 24

4. Get a bonus round and exit to lobby.

5. Go back to slot 1.

6. Spin 3-5 times again and go back to slot 24

7. You will now see once you complete the bonus round it is multiplied by your max bet

If you did this, you are almost done! Now you just need to upload your file to PayIvy (or another site you chose to use) and set a description and price. For the description I usually put something like this:

BRAND NEW GLITCH FOR (GAME YOU CHOSE FOR)

Only selling 5 copies before (company of the game) finds out!

Be fast and have fun, do not leak this glitch.

And for the price I usually put $9,99

If you want to make it look extra fancy you could always use a picture, just search on google (game name).png and copy paste it into the description.

The last step is easy. Just post the link on a forum (or forums) with some text. Example:

(NEW) GLITCH FOR (GAME NAME)!

Get it here: (your link to where they can pay and receive the .txt file)

Congratulations, this is the end of my eBook. Hope you will make some good **ca$h** with it. Now you just need to wait till someone buys it. Keep reading if you need some tips to maximize your earnings!

Tips:

- If you do find more forums than 1 for your chosen game, use it.

- Use this method with more games than 1.

- How better your post will look, how more people will click on it.

- The busier the forum the more sales you will get (so aim for busy forums)

My review :

I just bought the ebook and read it...

This method should be free it's not worth $ 10 --'

Yes is a noob friendly method, but it is still a method with the sale of an ebook (on payivi).

An advice... don't buy this ebook :)
