Make Your Computer Welcome U, By Saying Ur Name On Startup

To use this trick, follow the instructions given below:-

Click on Start. Navigate to All Programs, Accessories and Notepad.
Copy and paste the exact code given below.>>

```
Dim speaks, speech
speaks="Welcome to your PC, Username"
Set speech=CreateObject("sapi.spvoice")
speech.Speak speaks
```

3. Replace Username with your own name.
4. Click on File Menu, Save As, select All Types in Save as Type option, and save the file as Welcome.vbs or "*.vbs".
5. Copy the saved file.
6. Navigate to C:\Documents and Settings\All Users\Start Menu\Programs\Startup (in Windows XP) or to C:\Users\User-Name\AppData\Roaming\Microsoft\Windows\Start Menu\Programs\Startup (in Windows 7 and Windows Vista) if C: is your System drive.

7. Paste the file.

Make your Computer Welcome you at startup

Now the next time you start your computer, Windows will welcome you in its own computerized voice.

Note: For best results, it is recommended to change sound scheme to No Sounds.
You can change the sound scheme to No Sounds by following the steps given below:-

Go to Control Panel.
Then click on Switch to Classic View.
Then Click on Sounds and Audio Devices.
Then Click on the Sounds Tab.
Select No Sounds from the Sound Scheme option.
If you wish to save your Previous Sound Scheme, you can save it by clicking Yes in the popup menu.
Click on OK.

Change Sound Scheme to No Sounds

Try it yourself to see how it works. In my personal opinion, this is an excellent
